## Cleanliness is Next to Godliness

The man who said that, little realized that in our day—yea this very year of Grace 1922—the McGill Union would offer you the privilege of bathing in luxury in a tile bath unsurpassed by the splendour of the Romans.

Inquire at the Porter's desk and for one small dime you can revel in pure St. Lawrence water as long as you wish.

Towel and soap thrown in.

**McGill Union**

## ADDRESSES PRESIDENTS OF CLASSES

**Election of Union House Committee Discussed**

**ALL SHOULD VOTE**

**R. B. Hamilton Deplores Lack of Spirit in Student Activities**

The class presidents of each year in the different faculties in the university met yesterday in the Union. R. L. Hamilton, president of the Students' Council, centred his remarks on the lack of interest that is being taken in student activities and especially in the rooters' practices.

At the first practice three attended, at the second none, and at the third forty. This, in the president's opinion, is a disgraceful state of affairs, and if each student thinks it over he will come to the same conclusion himself, considering that the senior rugby team is working to its utmost, early in the afternoon until long after dark, in preparation for a hard fight with Queen's on Saturday, it seems indeed little enough for their fellow students to prepare their lungs to boost this team along.

The president appealed to the class presidents, who are able to bring home to the various classes such things better than any other medium, to impress on all the students their duty in this line, that the rugby team may feel that everybody in the university is behind them with a ready cheer, whether victory or defeat is forthcoming.

Two other important events are coming within the next week—elections for the Union House Committee and the meeting of the Students' Society. Attention must be focussed on these if they are to attain the success they merit.

The officers of the Union House Committee are to be chosen from the junior years. The best men will elicit these offices only if every student votes.

The president emphasized the act that the spirit that permeated the immense gathering at the smoker last week is the kind that will bring the efforts of all the officers in charge of student activities to a high point of success. This success depends on each individual, otherwise all efforts will be weak, half-hearted and will fall flat.

In bringing his remarks to an end Hamilton urged each president to have a heart-to-heart talk with the class he represented, and to try to stir up a little enthusiasm over the rooters, the election of a Union House Committee and the meeting of the Students' Society on the 18th to discuss financial affairs.

## FIRST TEA DANCE AFTER QUEEN'S GAME

**Union Event Expected to be Popular**

Immediately following the Queen's game on Saturday afternoon, a tea dance is to be held in the Union. This is a new idea so far as the Union is concerned, and if the venture proves successful there will be more held from time to time in the future.

Provision has been made for suitably caring for a large number of guests. The lounge room is to be the scene of the "fight" provided that the sale of tickets is not excessive, in which case the ball-room will be used. An efficient manager will have charge of the catering, which will be of the best. Good music is assured for Messrs. Adney, LeBaran and Simpson have promised to tear off some of the "meanest" syncopated melody ever heard around the college.

The tickets will go on sale at the Union at one o'clock on Thursday. It is understood that there will be a heavy demand for them, so it will be advisable to obtain them early. It will also aid the committee in making preparations, as they will be able to tell from the sale what number to prepare for. The price of the tickets is \$1.50 per couple. Dancing will begin immediately following the finish of the game and will continue till six-thirty. No pains have been spared in making complete arrangements and a most enjoyable time is assured. It is hoped that this venture will be well received by the students and that it will be only the first of a long and successful series of similar events to be held in the Union during the coming year.

## WHAT'S ON

**TODAY**

11.00 p.m.—Commerce '24 Meeting  
1.00 p.m.—Rooter's Practice

SATURDAY, Oct. 21st—  
Varsity at McGill.

## THE ANNUAL MEETING OF THE DAILY

**Promotion of "Norm" Gerton Announced**

**MANY ATTENDED**

**Members of R.V.C. Present in Considerable Numbers.**

The first general meeting of the McGill "Daily" staff of the present year took place last evening in the offices in the basement of the Union. There was an attendance of about fifty, with a goodly representation from the Royal Victoria College.

The president, J. L. O'Brien, was in the chair, and after welcoming the newcomers, he announced the promotion of "Mon" Egerton to the new board.

Egerton well earned his advancement, having been a consistent and capable worker on the staff for three years.

The Editor, H. O'Hagen, spoke a few words, following this, in an endeavor to explain to the reporters the importance of their connection with the paper, emphasizing the fact that efficient reporting was not only a boon to the college activities, but formed the criterion by which the "Daily" was judged inside and outside of the university. He added that it was absolutely necessary to the successful coming assignments that the reporter maintain touch during the day on duty with the Managing Editor.

A highly interesting talk on the "make-up" of a newspaper article was then given by the president. O'Brien laid stress upon the fact that the great majority of articles brought in for publication were inclined to be very fine as compositions, but rather weak as newspaper articles. He stated that the prevalent custom was to write a long and detailed introduction, which was most required in a newspaper write-up was a condensation of the main facts insofar as possible, in the opening paragraph, with the "story" succeeding. Several hints were given to those present regarding composing, which it was thought would prove of value.

## SUMMER WORK DISCUSSED BY CORPORATION

**Dean Laing Reviewed Work Done by School**

**FRENCH HOSTEL**

**Additional Subjects to be Added to Those Accepted for M.S.C.**

The establishment, in the near future, of a French Hostel for the convenience of students specializing in that language was suggested by Dean Laing, of the Faculty of Arts, at a meeting of Corporation yesterday. This hostel was to be somewhat of the nature of a French students' club, with a thoroughly French atmosphere and carried out along French lines. Dean Laing also reviewed the work of the Summer School for French students held during the past summer. He was most enthusiastic, for the school is a new institution and as a rule these do not meet with immediate success. The school was largely attended by teachers, who were desirous of improving their knowledge of the French language—the school affording excellent opportunities for doing this—and they came from all parts of Canada and the States. Dr. Laing congratulated the directors and assistants upon their excellent management of the school and said that he felt it was bound to prove even more of a success in the future. Montreal, as the seat of the French language in America, afforded the most advantageous opportunities for studying it at "close quarters" and so became the logical city to contain such a school.

Dr. Adams, Dean of the Faculty of Graduate Studies and Research, announced the decision to allow several new subjects under the degree of M.Sc. One can now specialize in Anatomy, Biochemistry, Physiology, Pharmacology or Pathology.

Dr. Lamb commented upon the work of the Department of Physical Education. Failures this year amounted to 92 students, 49 of whom reported for the supplementary course this September and the remainder failed on account of academic shortcomings.

## MEETING OF THE PHYSICAL SOCIETY

**Experiments to be Shown by Members of Staff**

The first meeting during the session of the Physical Society will be held in the Lecture Theatre of the Macdonald Physics Building, at 5.10 p.m., on Friday, the 13th inst., under the presidency of Professor Gillson. Experiments of a varied character will be shown by different members of the staff.

In the Heat Laboratory, from 3 to 5 p.m., the Alpha-ray Track Apparatus will be on view. In this apparatus, an expansion chamber containing moist air permits the actual paths of the particles shot from radium to be clearly seen; inasmuch as a cloud forms on the ions produced by the swiftly moving rays.

At the meeting itself, to which stay and students are cordially invited, Dr. Shaw will show a thermo junction of chromel-alumel. This device is replacing the mercury thermometer in many laboratories. Dr. Keys will show the method of finding viscosity by dropping small balls from bearings in glycerine. Dr. Eve will exhibit the current produced in steel wire by moving a Bunsen flame along it, the phenomenon still awaiting elucidation. The apparatus used by Dr. Boyle for finding Young's modulus by the method of the Kundt tube is interesting and useful, and should appeal to engineers. The colour tube, invented by Mr. Hopwood, consists of a carbon filament lamp rotated with considerable speed and, owing to the persistence of vision being unequal for different colours, a rainbow effect is produced. This subject might interest physiologists and experimental psychologists. Finally, Professor Reilly will explain and use the projecting microscope.

## "ROOTING."

To every normal human being their arises a crisis in his life when he sees fit to unreservedly express his feelings. It may have come first when he was an infant in arms and wished to demonstrate against the quality of his diet; it may have touched him later when he desired to make his affections known to the one of his choice; it may arise on Saturday when certain of the McGill undergraduates will be constrained to voice, in no hesitating manner, their opinions of the first intercollegiate game of the season. For each of these momentous occasions in the average existence there is a peculiar time and place; for the infant, when his nurse is present to hear his plaint; for the young man, when circumstances appear propitious; for the college student, when his team is on the field—and when he is with the Rooters.

A discussion of the two circumstances mentioned first above, would have no object in this column. What is worthy of emphasis, though, is the supreme importance of efficient "Shouting" in winning a game such as is to be held here on Saturday. We do not have to reiterate the effect on the players and on the grand-stand of well organized and effective cheering. To an intelligent person with even an inkling of the nature of psychology, the process of the effect of vocal encouragement is to obvious to require elaboration, and to any onlooker at a football contest the results of such exhortations are plainly apparent.

There is not a doubt but that every student in a position to be at Saturday's game will be there. There is also not a doubt but that every McGill supporter present will be a "Rooter". The question is whether or not his efforts to urge on his team will be availing. Certainly they will be so if the McGill Yell comes out in one unanimous, heartening roar. If it consists of a few scattered endeavours to "create a noise, the outcome will not be so assured. It is to ensure that there will be no uncertainty in the giving of that famous yell, to ensure that those in the grounds, as well as those around the grounds, will be reached by the echo of that battle cry of McGill, to ensure that our team will have the advantage of the co-ordinated "rooting" of every student at the university, that the Rooters are holding a practice to-day. See that you are on hand to lend your lungs to the many that are to support the plays of our Rugby Squad, so that on Saturday you, too, may have a part in that gigantic chorus of songs and yells that is to burst from the stands, from the very centre of the stands, we should have said, when our team leaves the dressing rooms. You need the practice; the Rooters need you. So be on hand at the Union this afternoon.

## HARRIER TEAM IS DEVELOPING RAPIDLY

The Harrier Club has been at work on the past few weeks developing new material. A large number of men have turned out for the team and although as yet there has been no real competition it is evident that some of the new men are due to catch a position on the team which will represent McGill in the intercollegiate meet this year. The teams from Toronto, Queen's and the Royal Military College will run against McGill in Montreal this year. Although all these teams are running the same as last year and Queen's has been strengthened, the Red and White team on their own course have a good chance of scoring a victory. Last year they ran third to Toronto and R.M.C. but with the same squad back this year and a squad of twenty odd new men out there will be more of an opportunity to develop a faster moving group of endurance runners. Legg, who is one of McGill's best bets, is on the track team and has not as yet stretched out over the long distances. He is running the mile in fast time this year and should step out at a faster clip than in the past. Wiggins is another old-timer at the game. He is at present running in the three-mile event on the cinders but at the conclusion of the track season will turn his attention to the mountain again. He is this year's captain of the track team, and with some serious training should win the run this year. The other members of last year's outfit that are back are Egerton, Stephens and Antcliffe. These three men are well known on the long runs and should show some improvement. All of them will be on the track Friday, and will show their true worth on the cinders. Although harrier work is a different type of running the track training gets men into shape for the long grind. Champion and Bishop, of last year's squad, are already running over the long course on the mountain. These two men were unable to enter last year because of illness. Both are holders of good times in the harrier contests.

Of the new men Grimson is the most promising. He is an old-timer as far as the long distance runs go and should do well. Hambly is another consistent performer at the game. With his crew of more or less well-known runners to select from and a large squad of new men whose true worth is as yet unknown, there is a good chance for McGill to score. The track work ends after the intercollegiate meet as far as

most of the men are concerned, although it is advisable for the new men at the field events to keep at their game as late as possible. It is a great help for even the short distance men to get out on the distance course, as it helps their stride as well as their wind. With the old team out in earnest and the new-comers after a place on the team some fast runs are sure to be staged. The Harrier Club is holding a run every day usually with a member of last year's team to set the pace. No fast work is being done yet and now is the time for any new men to start. The club publishes the time of practice every day.

## RHYMING REMARKS

(By SANDY P. ROE.)

I've noticed by the fashion notes that skirts are coming down—the really stylish thing, you know, is a long-panelled gown. The pannells even touch the skirt, and though the "skirt" may not it hides a lot of lower limbs which other skirts did not. "The calf," I've read, is doomed to go, although the flappers say that they won't wear these sweeping skirts for many and many a day. They use all sorts of arguments—you hear them everywhere. "The short ones" are nonsensical, and that's the kind we'll wear. "Those other trailing, dusty things just shouldn't be allowed—when anyone has Phoenix hose of which she should be proud." "This far more nuisance boarding cars, or walking, or in rain. I don't see why they want to bring those long skirts in again."

Some wise men say that skimpy skirts are menacing the males, and for our youngsters' morals, full many a papa quails. But this th eflapper does resent—this is how she feels: "We girls are human, so have legs. We cannot walk on wheels."

In Shakespeare's time it was the men who showed the fatted calf, which was admired by the dames—'twas so—although you laugh. Yes, 'tis the truth. Just look it up in some of Billie's plays and you will find things are reversed to what is in these days. But, of course, the style was doomed, 'cause maids got tired; you see, of watching John's—in Willie's—skinny, handy, legs and knees. Perhaps that is the cause just now, of this last change in style for bowed and tooth-pick shafts were seen around for quite a while, and so I say, that, though these skirts, which fashion now decrees, are perhaps too long for comfort—let's have some, if you please.

## NOTICES

Complaints have been reaching the Students Council that the rushing and threats to rush are interfering seriously with not only classes, but all college activities. For this reason, so that every undergraduate can settle down to his studies earnestly, and without fear of interruption, the Council have decided to declare that after Monday evening there shall be no more rushing. In the past rushing has always ended with the University sports, but since there is no holiday on that day, and it is impossible to hold one big rush and get it over, and since it is not fair to freshmen that they should have to give up their evenings from study, to start a year in an unsettled state is bad enough, even for men of upper years, but is much worse for freshmen. Therefore all sophomores are to take notice that no more rushing is to take place after Monday—and on Monday there must not be any disturbance to the freshmen which will in any way prevent them from attending their classes. Freshmen on the other hand, are required to wear their freshmen hats until Nov. 6th, or until such time the Council sees fit to cancel them.

## UNION THE DANCANT.

Tickets for the Dancant will go on sale at the Union at one o'clock Thursday. Price, a dollar and a half per couple. As the number will be limited it is well to obtain them at once.

## PHYSICAL SOCIETY.

A meeting of the above Society will be held in the Physics Building, Friday, 13th, Oct., at 4.45 p.m. Experiments by Staff.

## SWIMMING PRACTICE.

There will be a swimming practice at the Central Y.M. this evening, Oct. 12, at 5.15 p.m. All are requested to turn out. There is still a chance for new men.

## BILLIARD TOURNAMENT.

Entry lists for the billiard and pool tournaments to be held in the Union are now open. Entries will be taken by the billiard marker on the payment of 50 cents.

## C.O.T.C. SMOKER.

McGill C.O.T.C. will hold an informal smoking concert at the Student's Union on Friday, 13th, at 8.30 p.m. At which plans for the coming session will be explained. All past and present members and all prospective recruits are invited.

## ARTS-LAW TEAM.

Football money for the Arts-Law team should be handed in to L. K. Anderson sometime to-day. Those who were appointed to collect please try and report. Freshmen please take notice.

## UNION HOUSE COMMITTEE.

There will be a meeting of the Union House Committee at five p.m. to-day in the Council Rooms, McGill Union.

## ROOTER'S PRACTICE.

Everybody Out! Physical Eds. R.V.C.—Everybody! There will be a rooter's practice in the R.V.C. Gymnasium to-day, Thursday at 1 p.m. to practice for the Queen's game. Cheer leaders from the men have kindly consented to coach us so everybody out and support them!

R.V.C. Gym, 1 P.M.—Everybody.

## R.V.C.

There will be a meeting of the executive of the Société Française in the Faculty Room at R.V.C. on Thursday the 12th, at 1.30 p.m. Business plans for the coming session. Please be on time.

## ARTS '26 MEETING.

At a meeting of Arts '26 held in Room 250 of the Biological Building yesterday afternoon, B. McKinnon was elected Indoor Baseball representative for the class.

## COMMERCE '24 MEETING.

There will be a meeting of the class of Commerce '24 at 11 o'clock this morning. Every man in the class is asked to make it a special point to be present.

## ARTS RUGBY.

Practice Friday, 13th, at 3.00 p.m., all men requested particularly to turn out for this practice. Sweaters will be supplied at the Union.

## COMMERCE FOOTBALL.

Practice on the Campus at 2 o'clock this afternoon. A few sweaters and stockings can be supplied at the Union, but any players having uniforms of their own bring them along. All out and let us have another good practice this afternoon.

## HARRIER RUN.

There will be no Harrier Run to-day. All men trying out for this team should enter three-mile run on Friday.

## USHERS.

A number of ushers for the two football games are required. Preference will be given to men who have

acted in that capacity in previous years. Apply to J. G. Quackenbush at the Union from 12.30 to 1.00 o'clock on Thursday, October 12, 1922.

## ARTS '26 MEETING.

Meeting of Arts '26 at 1 p.m. in the Biological Building.

## INDOOR BASEBALL.

Will all classes intending to enter teams in the inter-class indoor baseball series elect their representatives as soon as possible and hand their names in to O. L. McCullough at the Union.

## ARTS-LAW vs. COMMERCE.

Arts-Law vs. Commerce football match has been postponed till 4.00 p.m. Tuesday, October 17th.

## "SOCCER" FOOTBALL.

Will all men interested in "Soccer" attend a meeting of this club on Thursday, 11th, at 5.15 p.m. at the Union.

## FOUND.

Fountain Pen left in the Union by a member of the Wrestling Club. Apply to the Porter at the Union.

## ENGLISH RUGBY.

A practice English Rugby game will be played on the Campus to-day. All those who were out yesterday and ANY players who have not as yet been out are asked to turnout. The game will start at 4.30 p.m. sharp. All out. Ruggerites!

## MEETING OF CLASS PRESIDENTS.

A meeting of the Presidents of all years was called for 1 o'clock Wednesday, at which only twelve presidents were present. This was a most important meeting yet, all were not present, so any Presidents who were not there yesterday, are asked to be in the Union at 1 o'clock to-day with it fail.

## ROOTER'S PRACTICE.

A Rooter's practice will be held in the Union to-day, at 5.15 p.m. The and will be in attendance and rooter's ps will be sold for Saturday's game.

## MEDICAL EXAMINATIONS.

Thursday, October 12th, 1922, at Tolson Hall. All first and second year students who have not already been examined this year, and all students of the higher years desiring to take part in competitive athletics, must be examined without further delay. Dr. Harvey will be at Tolson Hall, Arts Building on Thursday evening next, from 5.15 to 6.15 for examination of students in the above classes.

## WATER POLO TURN OUT IN CENTRAL Y.M.

Excellent Showing Made by the Beginners

## MORE MEN OUT

Game Against Maisonneuve Scheduled for Next Saturday.

That water polo is a sport of considerable importance at the university could easily be seen by those who attended last Monday's practice. Great enthusiasm was displayed by the large number who turned out.

The showing made by the beginners is much better than expected, for notwithstanding the fact that very few practices have been held, the new men handle the ball very well. It is expected that in a short time they will be in a position to fill the vacancies on the senior and intermediate teams.

McKindsey appeared for the first time this year and soon showed that he could block the goals in a very able manner. Williams and Tappel, aspirants for the position of goalie, are gradually learning to calculate the curves of the swift shots. With these men rapidly getting into form, Coach Vernot will not be handicapped as he was last season, when he was forced to depend on one goal tender for each of the teams. Of the new men Murphy, Brodie and Berwick show the greatest improvement.

The senior team has not been able to have a workout as yet most of its members being unfortunately laid up with colds. Coach Vernot, as well, has been unable to turn out so far. The game against Maisonneuve will be played by the intermediates, and those of the team who display any marked ability will be selected to fill the gaps on the senior team. Next Saturday new-comers will be given an opportunity of showing what they can do against the Y.M. Juniors. The team to play the Y.M. will be composed entirely of men who have never played before.

## ADDRESS BY PROF. DAWSON ON SERVICE

Reviewed Progress of Charitable Work

## MENTAL DEFECTIVES

Those Unfortunates of Society Should be Well Cared For

"Is the Church putting before us a life that shall make alcoholism and vice uninteresting?" was the question asked by Professor Carl A. Dawson, B.A., Ph.D., in an address on "The Church and Social Service," before the Synodical Conference on Sunday, Schools, and Young People's Work in the David Morrice Hall last night. Prof. Dawson brought out the fact that in matters of Social Service we always have to look to the example of Jesus; he preached the lesson that "He that is greatest among men, he is the servant of all," and that He himself was among men as one who served. He then showed that in the Middle Ages and even in the days of the Roman Empire there was a certain amount of charity through the medium of the existing Church. In the period of the Industrial Revolution as people crowded into the cities there was much social unrest; at this time, in fact, was the birth of social unrest and of new social movements, and charity became secularized. It was then realized that man had a social nature and that men were inter-connected and inter-related. Men then realized that the Church must not only concern itself with the relation between man and his Maker, but also with the relation between man and man. "The vicious can viciate the virtuous," said Prof. Dawson. He then added that although this was not quite true, still the vicious do make tremendous inroads on the Church. The Church is interested in these matters because they destroy man body and soul.

In Montreal we have the huge problem of mental defectives—that is, people who are on a lower plane of mentality and therefore cannot take in even ordinary knowledge. For this reason it is attempted to segregate them in the schools but there are no separate classes to minister to their needs. Therefore they have to be turned abroad in our community without education. They should be placed in suitable institutions—but there are too few of these and there are none of the modern programmes of education in whatever schools that there are. For this reason those who make life unsafe for our boys and girls are intended; the very fact that they will do harm demands that they be cared for.

Social Service, as mentioned before, is not new. All specialized agencies developed through the Church. Charity was at first remedial and sought to clothe and feed the poor but in this it was thwarted by robbers. Then later all agencies were federated and their task was to set men on their feet. "In Canada," said Prof. Dawson, "we expect a man to move under his own steam." Modern charity, however, has gone beyond the remedial to the preventative. An example of this is the institutions for dealing with foreign immigrants and instructing them before they have a chance to do wrong.

In connection with recreation, Prof. Dawson urged that in this age boys and girls are going to certain kinds of amuse-

## RUMOURED MEETING IS FLATLY DENIED

No Definite News Obtainable From Queen's

A long series of reports were coming over the wires last night concerning a meeting of the C.I.A.U. Board of Referees, which was supposed to have been held at Kingston yesterday for the ostensible purpose of investigating reports about the Queen's team, that have been circulating for some time. It had been expected that the governing body in intercollegiate athletics would take some action to put a stop to the unsavory rumors that had been spread but there was no announcement of any meeting.

Persistent reports that a sudden meeting had been called in Kingston were sent out during the course of the day but investigation in Kingston failed to find any confirmation of them. It was definitely stated by several of the authorities at Queen's, who should have known of any such gathering, that they knew nothing about it but the rumors persisted and nothing definite had been learned at an early hour this morning.

Coach Awrey was said to have been approached by a correspondent last night and he was in ignorance of any reason for such a meeting having been called. As far as the Athletic Board of Control of Queen's University was concerned there was nothing to investigate, he is said to have stated, and he, too, was in ignorance of the supposed meeting.

If the meeting was not held, as was stated, it is not improbable that something will be done in the near future, as there has been an increasing demand for an investigation that would put an end to the talk that has been current since the opening of the intercollegiate season this fall.

## FRESHIES BEWARE!

The day of judgment draweth nigh. Woe to those foolish and misguided creatures who defy the Rules and Regulations. They shall be dealt with according to their deserts, and that lot shall not be an enviable one.

Remember the respect which must be paid to your superiors, the Sophomores. Remember that it is an honor to be allowed to serve and wait on them, and that you are unworthy of even a glance from them.

Remember, the privilege of wearing McGill colors, in any form whatsoever, is one to be indulged in only by your superiors, and is strictly forbidden to insignificant creatures, such as freshies. The Sophomores have noticed a tendency to break some of the just laws that are imposed upon you. Such offenders stand in grave danger of the law and are warned to beware henceforth, of they will be much to be pitied.

THE SOPHOMORES, R.V.C.

ment that were "taboo" to their forbears. "Therefore," he said, "make these amusements safe and sane so that the lives of our boys and girls will be safe."

At McGill there is an attempt being made to fit the young minister with the best knowledge of human needs. "For," concluded Prof. Dawson, "the Church needs to know human life so that it can preach the Gospel in the terms of the people it serves."

Following this address, the meeting concluded with an open discussion of social problems.

## MISS VERA BROWN WINS DISTINCTION

Thesis of Former History Professor Published

"Anglo-Spanish Relations in the Closing Years of the Colonial Era," a thesis of much importance appearing in the August issue (1922) of the Hispanic American Historical Review, Washington, D.C., is the work of Miss Vera Lee Brown, an M.A. graduate from this university, and for four years a lecturer here in the department of History. This thesis written during many months residence in England is a work of excellent merit, its acceptance by such a magazine being testimonial in itself. A brief account of her career will be of interest to McGill students.

Miss Brown, native of New Brunswick, acquired her early education at "Netherwood", Rothesay, N.B., entering McGill from there. In 1912 she acquired her M.A. degree and began work on a thesis with the view to a Ph.D. A few years later through fire her work on this thesis was completely destroyed and in 1916 she returned to McGill as a lecturer in the Department of History. She remained on the resident staff of R.V.C. until 1920 and during her stay there found many firm friends in both staff and students. She was well liked by everyone and was always keenly interested in the activities of the student body. Under her direction the R.V.C. Historical Club became one of the most prominent societies of the college, and undergraduates were never failing in their enthusiastic support of it. In Delta Sigma circles she was also active and keenly interested; likewise in undergraduate sports. In school and college days an active basketball enthusiast; when of the resident staff of R.V.C. she was ever keenly interested in class, and later, intercollegiate basketball. An all-round sport, she was greeted with enthusiasm everywhere.

In 1920 she left for England, and during her months of stay there composed her important thesis which has won her great distinction. In 1922 she acquired her Ph.D. degree from Brynmour. That year she also saw her appointment to the position of Professor and Head of the Department of History, Wilson College, Chambersburg, Pa. Enthusiastic and wide awake to the demands of this age, she is a valuable addition to any college staff.

## R.V.C. CONSOLATION TENNIS TOURNAMENT

It has been decided to include in this tournament all players except those who have reached the semi-finals. This does not affect those who have already played their first round. It is does not rain, all first round results must be in on Thursday or players will be defaulted.

The draw is as follows:—

Roy plays Hutcheson.  
Affleck plays Perrin.  
Debarats plays Slack.  
Secord plays Bingham.  
Perry plays Godwin.  
Kerr plays Silver.  
R. Dunton plays Marshall.  
Longworth plays Millen.  
Neighorn plays Martin.  
E. Dunton plays Evans.  
J. Spier plays Hirtsberg.

# ANNUAL GOLF TOURNAMENT NEXT FRIDAY

Professors to Play Students at Dixie

## STRONG TEAMS

Entrance List for Competitors Close Monday Evening

The annual golf match between the students and professors will be held on the morning of the Intercollegiate Sports Day, October 20th.

This event, held every year for some time past, was unfortunately cancelled last year, owing to the Centennial Re-union. Interest this year, however, is extremely keen, each team being confident of its ability to add another victory to its credit.

In the past the professors have usually shown themselves the superiors of the less experienced students, and at the present time lead in the number of matches won. With the ever-increasing numbers of youthful golfers, however, the students feel assured that they will be able to avenge themselves for past defeats. Heading the student team will probably be Grant Annable, the youthful Kanawaki player, who did so well in the invitation tournament held recently at the Beaconsfield Golf Club. Several other local players have already signified their desire to play. These include Hodgson and Johnson, R.M.G.C.; McCall, Munn and Pratt, Beaconsfield; Darling and Kent, Whitlock.

The match will take place on the famous links of the Royal Montreal Golf Club at Dixie, which were recently remodelled and now consist of two championship 18-hole courses. Students playing in the match will finish in plenty of time to reach the Stadium for the Sports in the afternoon.

It is desired that all students who wish to play should submit to the Hall Porter at the Union their name and year, together with their match and medal handicaps, either actual or approximate, and the name of their home links.

The team will be then chosen and published in the "Daily" some days ahead of the match.

Names should please be submitted at an early date. The list will close on Monday evening, October 16th.

# LOYOLA WINS FROM MCGILL JUNIOR TEAM

Hard Fought Contest Marks Opening Struggle

SCORE 13-5

Teams in Junior Provincial League Are Very Evenly Matched

The first game of the Junior Provincial football schedule was played yesterday afternoon at Loyola grounds. The Junior squad, which has never lost a game within the last three years, winning the Provincial championship during that time, went down to defeat in a closely contested struggle with the Loyola twelve. The Junior section of the Provincial league, is composed of four colleges, namely: Bishop's University, MacDonald College, Loyola and McGill Juniors. The result of yesterday's game is no criterion as to the future of the team for this season. As the score would indicate, it can be seen that the Juniors started in with a rush, and were on the offensive during the whole of the first quarter, scoring a touch down, and closing the first quarter, with a score of 5-0 in their favour. In the remaining three periods Loyola was much the superior, and managed to pile up thirteen points, bringing the final score to 13-5. The game was hard fought from the first to the last whistle. Not a single man was penalized on either squad, which is something not to be overlooked. Montague and Altamas were the outstanding figures, for the Loyola aggregation, while Davis, Germoray, and Roche were the hopes of the Junior squad. The team lined up as follows:— McGill—Starke, Gordon, Snyder, Hutchison, Winslow, Davis, (Capt.), Roche, Glasco, Frawick, Shor, Moore, Germoray; Subs: Allen, Anderson.

Loyola—Sumaga, Walsh, Anglin, Altamis, Leamy, Scott, O'Connor, Montague, McArthur, Mitchell, McMahon, Anglin; Subs: Beaubien Brannen.

Bishop's College, it is understood on good authority, have a husky squad this season and are training faithfully. They would bear watching. The boys from Lennoxville gave a good account of themselves last year. It will be noted that the teams in this league are well matched, and the outcome will be watched with much interest.

# PRACTICE OF RUGGER TEAM ENCOURAGING

Gruelling Workout on Campus Yesterday

## PROSPECTS ROSY

Much Improvement Shown in Play

English Rugby prospects at McGill are looking up. The first real practice of the year was held yesterday afternoon, and a surprising amount of real ability was exhibited. The squad was reinforced by several new-comers who evidently have had considerable experience at the game, and all of whom should make strong bids for the team. The three-quarters are fast rounding into form, and a great deal of very fine passing was done yesterday, all the candidates for this position showing that they had played a good deal of rugger and there should be no difficulty in getting four men as good as those comprising last year's three-quarter line.

The two teams were sent hard at it by Manager Budden for three-quarters of an hour without a rest, and showed very little signs of fatigue afterwards, although towards the end there was a noticeable reluctance to follow up on the part of some forwards. However, the problem of condition is now worrying the coach at all as the several preliminary practices held already this week have gotten the men into mid-season form.

Cooper and Price worked very well together as halves for the "A" team. Price getting away several times for fine runs, and Cooper showing quickness and precision as scrum half. Marpole was easily the pick of the three-quarters, although Cooper and MacDonald made close seconds. Holman, as scrum half for "B" team, did some very fine work, getting away for a very nice try at the beginning of the game.

The forwards showed an immense improvement over the form shown in previous practices. The presence of several new men lent added weight and experience to the pack, and it seems now assured that a good heavy scrum will represent McGill in the MacTier Cup and Intercollegiate series. Walsh, Walters, Taylor and Wilson seemed the pick of the forwards yesterday. Patterson was again an absentee, but is expected out today. McLeod did some good work and tries very hard, and with more practice should develop well.

The position of full back has yet to be filled. MacAvity was given a chance there yesterday, and did very well, getting off some very good kicks, although he is a little weak at tackling.

At a meeting of the club held after the game it was moved and unanimously agreed that the club should go on record as being willing to pay a proportion of the team's expenses on the trip to Toronto, to supplement whatever grant the Athletic Association is able to provide the club.

# INITIAL TURNOUT SCIENCE FOOTBALL

Signal Practise and Election Held — Almond for Captain

A most successful and enthusiastic practice was held by the Science football squad on the Campus yesterday afternoon. "Pep" was the word from start to finish. Although it was the first workout of the year it was by no means a small one, almost thirty men coming onto the field.

After a short drill on the large field the men retired to the smaller "ampus owing to a practice of the English Rugby team. The squad was then divided into two groups, to work independently at Signal Practice. In his, the veterans proved that they had by no means forgotten the old tricks and the new members (easily distinguished from the rest, owing to he rather conspicuous loss of hair at the back of the head) were quick to catch on to these.

At the end of the afternoon the game was called together to elect a captain for this year's squad. The men were almost unanimous in their election of Lloyd Almond to captain the team.

The new captain then "spoke a few well-chosen words" and showed he meant business by ordering the men out for the next day at 1.30. All spare time was to be utilized for football, he said, and a hastily eaten dinner must not interfere.

Coach Bailey said he thought the team showed good promise. The ne though "young and inexperienced" was steady, and the halves fast and reliable. He is looking forward to the team keeping up the reputation it acquired last year by coming out on top in the inter-faculty struggle.

# SHAG. TRIES NEW MEN ON WING JOBS

Philpotts and Easson Still on Sick List

## MANY CHANGES

Coach Shifts Men Crain Calls Signals, Newton Flying Wing

Coach Shaughnessy's football squad still continued to be augmented. The latest addition to the Red and White gridiron outfit is Woodruff, a heavy line-man, who performed on the Yale Freshman team last fall. Woodruff performed well and gained considerable experience on the Eli yearling eleven, and he should have very little trouble getting himself familiar with the Canadian game. He has an excellent build and possesses the advantage of speed, coupled with plenty of weight. The McG coach is using the new-comer at right middle wing. That side of the line was woefully weak in the game with the University of Toronto on Saturday, and an additional strength will be greatly welcomed.

In the brisk workout held yesterday afternoon at the Stadium, running down under kicks occupied a great part of the practice. Much time was spent in tutoring the outside wings, another department in which McGill showed a sad weakness in Toronto over the week-end. Shaughnessy tried out a new pair of ends yesterday afternoon, Fife and Dyer being the duo called upon to show their wares. Both of them showed lots of speed and show flashes of tackling ability.

Charlie Robertson was on the field again, and seems to have fully recovered from the injury to his leg. Jack Casson is still limping around, suffering from water on the knee, but hopes to be back into the game in a day or two. Ambridge also returned to practice and got into action yesterday.

Philpotts is still out with an injury to his side and will not be on the line-up when the team faces the invading Presbyterian twelve on Saturday. Baker, the lanky westerner, is being used in place of the McGill veteran, and shows a great deal of promise. He punts well and is a fast man down the field.

Newton was tried out at flying wing and Eddie Grain was given a chance to call signals, Dink Carroll being moved back to his old position on the back line. Manson is being used as middle wing and Shaughnessy is figuring Walsh as a utility half-back.

So it seems that several new faces will appear in Red and White uniforms when McGill meets Queen's. The tricolor is placing on the field the strongest team in the history of the institution and feels confident of its ability to take the measure of the local team. Their back field includes in Laidley, Harding and Batstone, perhaps the best half-line in Canada, and on the line "Red" McKelvey is a tower of strength while "Bud" Thomas, former outside wing on the Ottawa team in the Inter-provincial League, is rated as the best end man in the Dominion. But Queen's will meet a much stronger and more determined team than that which went down before the Torontonians, and it will take everything the visitors can show to down the McGill players on their home grounds.

There is a likelihood of the Kingston team being minus one or two of their men on Saturday because of certain technicalities which the Registrar of the University is looking into with reference to eligibility of players. Seats for the game are selling fast and one of the largest crowds to visit a McGill-Queen's game is expected to be on hand when the opening whistle is blown.

# COMMERCE-ARTS RUGBY PRACTICE

Yesterday afternoon on the old campus the Commerce and the Arts Law teams held a rugby practice in preparation for the game next Tuesday.

There was a good turnout from Commerce, the players consisting mostly of first year men. The grounds, although slippery, was good enough to afford a decent practice. Jack Emo was busy coaching the team and under his supervision a good hour's work was put in, considerable time being devoted to signals. The players have now had two practices and show indication of rounding into form. Ralph Cummings, who has played half-back for the M.A.A. Intermediates, was out and promises to be a great help to the team. Other players of note were Taprell, McRae and Don Woodward. Jeff Hamilton, who did good work on last year's team, was present and appears to be in shape for another active season.

The team is made up of good material and it will undoubtedly make a good showing in the inter-faculty games.

The practice of the Arts-Law team was poorly attended, but this may have been caused by attendance at lectures. Those who were present put in some good work at signal practice, and there was sufficient material on hand to indicate that a good team would be available if there is as large an attendance at the next practice as expected.

# TRACK MEET WON BY THE SENIOR CLASS

MacDonald College Holds Successful Field Day

## RECORDS BROKEN

Rollerton Does 19 Ft. 10 Inches in Broad Jump

Yesterday afternoon MacDonald College held its annual sports day, which attracted great interest. The track club at McGill sent Manager R. B. Henry out as a representative and he reported an enthusiastic track squad at Ste. Anne's. A large number of men entered the competition, and although only one record was broken several others were reached. The senior class won the meet by a large margin, J. Smith, Vanderpool and Maw being the largest point winners. Smith won the individual championship easily and if he had entered in only one or two events in all probability would have been a record breaker. This versatile athletic won five first places in the meet.

Rollerton broke the record in the broad jump. He bettered the old distance by five and three quarter inches, covering nineteen feet ten and three-quarter inches. This under the circumstances is remarkable work considering the weather, and Rollerton should develop into material for the college team.

The relay was won by the seniors. They came within one and three-fifths seconds of the record and were fifty feet ahead of the Freshman who ran second in this event. The Juniors almost squeezed the yearlings out, but the final dash gave it to the younger class. Much enthusiasm was shown by the huge crowd of spectators. The score ran close and it was only the last few events that gave the Seniors their win.

The various men in the meet could have broken more records but so keen was the competition that the athletes employed only the minimum amount of effort in order to save their strength for the races that followed. The Junior class won the second place in the meet.

There were about forty entries. Although the track was soft the times were not bad. The meet was undoubtedly a success and the track club management at MacDonald handled the it in a business like manner.

The results follows:

<b>Macdonald College Track Meet.</b>	
100 yds. R. Smith, 11 secs.	
Shot Put, J. Smith, 33 ft. 1-2 inches.	
220 yds. Vanderpool, 25 2-5 secs.	
1 Mile, Perron, 5 mins. 35 3-5 secs.	
Broad Jump, Rollerton, 19 ft. 10 3-4 inches, new record.	
High Jump, J. Smith, 5 ft. 1-2 inches.	
440 yds. Maw, 1 min. 2 2-5 secs.	
Pole Vault, J. Smith, 7 ft. 9 inches.	
Hurdles, Vanderpool, 20 secs.	
1-2 Mile, Maw, 2 mins. 26 1-5 secs.	
Standing Broad Jump, J. Smith, 3 ft. 11 inches.	
Hop Step and Jump, J. Smith, 37 ft. 11 inches.	
Relay, Seniors. Time: 1 min. 1 sec.	
Record is 1 min. 48 2-5 secs.	

After a deep and long study of old manuscripts Professor Bone has come to the conclusion that the following poem by Methusela must have been written in or about the year 1922. For these old documents state that at this period of history damsels were accustomed to don what was known as "the knee length skirt." Only in this way can the statements by Methusela that the damsels were seen "skipping down the hill" be accounted for.

Two freshies curled upon a bench  
Enwrapped in thought.  
The pond their shadows caught intense.  
They sought  
Knowledge anew, the spicy flavored kind,  
Not Aristophanes or Greek divine.

A book each clutched with firm intent,  
They looked them o'er,  
Their glances with grass y'blent,  
Or there did soar  
Ten damsels skipping down the hill  
Their laughter like the bubbling rills

Haw, Haw.

**5—YELL**  
There ain't no flies on us,  
There ain't no flies on us,  
There may be flies on some  
of you guys,  
But there are no flies on us.

**6—YELL**  
**HAIL, ALMA MATER.**  
Hail! Alma Mater, we sing  
to thee praise,  
Great our affection; tho'  
feeble our lays;  
Nestling so peaceful and  
calm 'neath the hill;  
Fondly we love thee, our  
dear old McGill.

**7—YELL**  
**YELL (Slowly)**  
The Cat's paw!  
The Bee's knees!  
The Lion's jaw!  
The Flea's sneeze!  
That's McGILL!!

— Sent in by M. H. Toker, Dent. '24.

**8—YELL**  
STRUM tiddlee um dum,  
STRUM tiddlee um dum,  
McGILL, McGILL, Put 'em  
on the run.  
STRUM tiddlee um dum,  
STRUM tiddlee um dum,  
Oogie, Oogie, wa wa, (slight  
stop) BUM, BUM.

—Composed by Jack C. Presner,  
4th Year Med. '25.

**9—YELL**  
**Tune: "In the Good Old  
Summer Time"**  
**"IN THE GOOD OLD  
RUGBY TIME."**  
In the good old Rugby time,  
In the good old Ruby time,  
Sprinting round the Queen's  
mens' line  
And crashing through the  
line.  
The ball is kicked,  
Our wings are down,  
And that a very good sign;

We'll fight our way to  
Victory,  
In the good old Ruby time.  
—J. C. Glassco, Commerce  
'25.

**10—YELL**  
**To the tune of the Doxology.**  
**To be sung just before games.**  
There are two teams who play  
McGill,  
And they are Queen's and  
Varsity,  
They always come to make a  
kill  
But we must win the victory.  
M—c—G—I—L—L—Yell—  
—A. V. Forrester, Med. '24.

**11—YELL**  
**WE HAVE A LITTLE  
TEAM.**  
**Tune: I Had a Little Hen.**  
O we have a little team  
And it is so very fine;  
It's the best little team that  
has ever bucked the line.  
We're ahead (or on, as the  
case may be) with the  
game  
And we don't give a darn  
But another little touch  
wouldn't do us any harm.

**12—YELL**  
**REUBEN AND RACHEL.**  
Reuben, Reuben, I've been  
thinking (Girls)  
Reuben, Reuben, I've been  
thinking (Boys)  
What a dead world this would  
be  
If instead of our McGill boys  
If instead of R.V.C. girls  
We had those of Varsity.  
—Bill Heweston, B.Sc. Arts  
'26.

**13—YELL**  
**COAL BLACK MAMMY OF  
MINE**  
Oh we're going; yes we're  
Going, with a vim that's  
ever growing;  
Till we Buck right over  
their line  
Let us cheer, let us cheer, and  
we'll get there never  
fear  
For its just a matter of  
time.  
If we fight, with our might,  
we can put our foes to  
flight  
And our sun will ever ever  
shine  
So we're going yes were go-  
ing, and the Best of  
stuff were showing  
Till we Buck right over  
their line.  
—E. Wallace Willard, Jr.,  
Arts '23 and R. U. Fortune,  
Arts '25.

**14—YELL**  
**Tune: OH HELEN'**  
McGill, McGill, You've go to  
buck that line,  
McGill, McGill, now is the  
only time,  
You know—It's so—that we  
are back of you,  
Play up. Play up. We're  
going to see you through.  
—H. W. Buzzell, Sec. '24.

**15—YELL**  
**STUMBLING.**  
Bucking up the field, Buck-  
ing up the field, Bucking  
up the field so easy  
You can make 'em yield, you  
can make 'em yield, you  
can make 'em yield.  
And if you want to kick,  
Just pass the ball out quick,  
And when you've done the  
trick,  
Just turn to them,  
And tell 'em

"That's the latest play, that's  
the latest play, that's the  
latest play,  
It's no use.

We shall win to-day, we shall  
win to-day, we shall win  
to-day.  
Don't stop to Cry, Boys.  
Just say "good-bye" Boys,  
"Cause you can never win the  
game, never win the game,  
never win the game."  
—E. Wallace Willard, Jr.,  
Arts '23, and R. U. Fortune,  
Arts '25.

**16—YELL**  
**HAIL, HAIL, THE TEAM'S  
ALL HERE.**  
**Tune: Who Wants to Know.**  
Hail, hail the team's all here  
Are we going to win? Yes!  
Poor old Queens cave in?  
Yes!  
Yea, bo! the team's all here,  
So what the hell do we care  
now!  
—Bill Heweston, B.Sc., Arts  
'26.

**17—YELL**  
Rum sticka, bum sticka, Pad-  
dy will you nipp  
With a zip zap, zip zap, Pad-  
dy will you hit,  
Mahaw, Mahaw, ziz boom,  
bahw,  
McGILL Team, McGill  
Team,  
Rahw, Rahw, Pahnw.

—Composed by Jack C. Presner,  
4th Year Med. '25.

**18—YELL**  
**Tune: GEORGETTE.**  
Oh Queen's Poor Queen's  
We're sorry for you.  
Oh Queen's, Poor Queen's,  
But what can we do.  
Our boys, our noise,  
Show that we're the cream.  
No mater, the chatter,  
About your wonderful new  
team  
You know, 'Tis so,  
We'll lay it on thick,  
Our play, To-day,  
Will make you feel sick.  
Although you came without  
fears,  
We're going to land you in  
tears,  
It means, such scenes, poor  
Queen's.

## HUMILIATED FROSH SUFFER INDIGNITIES

Although Mr. Freshman has, as a re-  
sult of his treatment the other day, be-  
come an unquestioned member of Old  
McGill, there are some matters in which  
he is as yet, rather green. The most  
important of these is his studies. From  
his earliest years he has been accustomed  
to a great deal of help in his work from  
the teachers, in other words, he has ex-  
perienced the spoon-feeding method of in-  
struction.

Now that he has arrived at McGill,  
however, he finds, somewhat to his sur-  
prise, that he must work out his own sal-  
vation. Instead of being an important  
member of a class of thirty, he finds  
himself nearly lost in the hundreds that  
now crowd the lectures. Sometimes the  
professor allots him a membered seat,  
and although he then more secure, he  
fears that he has descended to the level  
of a convict, who is known only by num-  
ber. On other occasions the roll is  
called, and he cheerfully suffers the in-  
dignity of having his name mispronounc-  
ed.

During some lectures, the poor freshie  
becomes so absorbed in listening to the  
words of wisdom that he fails to make  
any notes; the result of this departure  
is that he has a rather ignorant feeling  
the next time he takes his place before  
the "prof." Altogether, our young  
friend finds his duties quite burdensome,  
and he is appalled when he hears that  
there will be monthly exams. in most  
subjects.

## PRACTICES BEGIN FOR WRESTLERS

**Old Timers All Turn Out  
ATTENDANCE POOR**

**More Heavy Men Urgently  
Needed**

From the point of view of attendance,  
yesterday's practice, the first held by  
the boxing, wrestling and fencing this  
year, left much to be desired. The men  
who did turn up, however, soon showed  
their intention of making this year the  
most successful in the history of the club,  
expressing at the same time an earnest  
request that more men turn out to assist  
them in materializing their plans. Fresh-  
men who have any inclination at all for  
wrestling are especially requested to  
turn out at the next practice.

Trainer George Smith was absent from  
practice, being unavoidably detained. It  
is expected, however, that Mr. Smith  
will be out next week to put the men  
through a systematic workout.

As was expected, most of the old-tim-  
ers turned out and gave a brief display  
of their skill and ability. Among these  
might be mentioned Matthews, Mac-  
donald and Armstrong, each of whom  
was a member of last year's team.

The executive committee wishes to  
point out that what is especially re-  
quested at present is some heavy mat-  
terial. All heavyweight men who are  
interested in wrestling, whether they  
have had any previous experience or not,  
are earnestly requested to turn out at  
next Monday afternoon's practice.

Since the Science rush the other day,  
we might very easily change the title of  
the "Barber of Seville" to "The Barber  
of McGill."

## INDOOR BASKETBALL COMMENCES SOON

**Meeting for Organization to  
be Announced Later**

In response to the notices which  
have appeared in the "Daily" for the  
past few days, several entries have  
been received from classes intending  
to enter baseball teams in the inter-  
class series. Last year there were  
eighteen teams entered in this series  
and it is hoped that the number will  
be at least equalled if not exceeded  
this year.

Some classes have not yet elected  
their representatives and it is impor-  
tant that they should do so at the  
earliest opportunity. There will be a  
meeting of the representatives in the  
near future and it is desired that every  
class intending to enter a team should  
have a representative present at that  
meeting. Notice of the meeting will  
appear in the "Daily" in due course.

The games will be played in the  
gymnasium of the Montreal High  
School on University Street as they  
were last year. It is hoped that the  
gym will be available more nights  
each week than was the case last sea-  
son. If it can be obtained more fre-  
quently it will be possible to have a  
schedule containing a greater number  
of games than was possible previously.

For the benefit of the freshmen, let  
it be understood that attendance at  
baseball practices and games will count  
as gym attendance. It will be pos-  
sible for each team to reserve a prac-  
tice hour at Molson Hall and in this  
way by attending practices and games,  
a man may complete his required  
amount of gymnasium work without  
the necessity of attending the gym  
classes.

In order that the schedule may be

## GLEE CLUB PLANS SPLENDID SEASON

**To Hold Two Concerts Dur-  
ing Winter**

The initial meeting of the Glee Club  
was held last night at Strathcona Hall,  
with about twenty members present.  
Plans for the coming season were dis-  
cussed. The Club is going to give  
two concerts this year, of a similar  
nature to that given this Spring. The  
first will take place about the second  
week in December, the other early in  
March. Practices are to be held twice  
a week, for the present on Monday  
and Wednesday evenings.

Mr. H. E. Key spoke of the success  
of last year's concert and hoped that  
the standard set then, would, if pos-  
sible, be exceeded this season. While  
quite a few of last year's members  
have graduated, several new members  
were introduced last evening. The  
material is good and the prospects are  
very encouraging.

A lot of new music has been ordered  
and is expected this week. It in-  
cludes some splendid Part Songs and  
Glee Songs by well-known composers.  
One number worthy of mention is a  
special arrangement, by John E. West,  
of "Loch Lomond".

The new voices were tried out and  
classified, and, after a short practice  
the meeting adjourned.

drawn up without delay all class  
presidents are requested to see that  
representatives are elected from their  
classes and that the names of these  
men are handed in at once to O. L.  
McCullough. When the name of a  
representative is handed in, it will be  
taken for granted that the class he  
represents wishes to enter a team and  
no further notice will be necessary.

**IMPERIAL THEATRE**  
Toc Brown's latest offering, "The  
Princeton Five", a comedy musical act,  
will be seen at the Imperial ne t week.  
They are five men, they are all musi-  
cians, and there is, of course, a com-  
edian and this comedian happens to be a  
particularly good one. There is no use  
denying that Nate Leinizis is a trickster  
and such a trickster. He is a young man  
to be watched. Deception, Mr. Mr.  
Leipzig makes a profession, a means of  
transportation that has caused him to  
be carried all over the world and made  
him a man of international repute. Noth-  
ing is more inclusive to melody than  
moonlight. Almost without exception  
where one is found the other is found.  
There is a soft sweetness, irresistibility  
about moonlight and melody. This is  
the reason Dave Dillon and Edith Milton  
call their songs "Moonlight Melodies".  
Baggett and Sheldon are absolutely up  
to the minute. Their ambidexterous  
manipulation of clubs and hats is noth-  
ing short of a science but unlike most  
scientists their work is full of fun. Wil-  
liam Newell and Elsa Mos toffer "On  
the Lawn". They know how to sing,  
dance and exchange patter. "Dance  
Fantasies", with Phillip Warrington and  
Laura Foster completes the vaudeville  
portion of the bill.  
"The New Teacher", featuring Shirley  
Mason, is the photoplay for the week.

**THEATRE FRANCAIS  
(COURT)**  
**Friday Evening, Oct. 13**  
In addition to the usual burlesque  
show, there will be a  
**GREAT WRESTLING  
CARNIVAL**  
**2 Big Bouts 2**  
E. Maupas, C. Cutler.  
C. Lindfors, N. Choquettie.  
**NO INCREASE IN PRICES.**
